

HEADQUARTERS DETACHMENT

2677th Regiment, C.S.S. (Prov)

A. P. O. 534 - U. S. ARMY

26 August 1944

SUBJECT: KUVACS, Paul; MAGYARY; ARADI Zsolt

TO : Lt. Comdr. G. G. Parry, Jr., USNR, Security Officer

1. KUVACS, Paul. To have been employed in a dropping operation in Hungary. In the City of Rome, recently, another individual by the name of K. was asked by an Italian acquaintance (unknown): "Oh, you are still here? I thought you were going on a mission to Hungary?" Evidently, it is known that KUVACS is going on a mission to Hungary. This is sufficient evidence, I believe, to indicate that the security of KUVACS, Paul, is very seriously compromised.

2. MAGYARY, Gyula. This office has reason to believe that members of an Allied nation are aware of the fact that MAGYARY is to be used as an agent by OSS. This would constitute a breach of security involving violation of 189 directive concerning the transmittal (innocently or otherwise) to a member of members of Allied nations, the names of potential agents and/or information pertinent thereto.

3. ARADI, Zsolt. Allied Nations are in possession of the most detailed information concerning this individual's background. The undersigned has had the opportunity to read a British report on ARADI. Two things stand out in it:

- a. The British state, that in view of his background which seems to be so completely involved with members of an enemy nation, it would be considered dangerous to use him.
- b. The British apparently had investigated Subject with great care and assiduity and are extremely well informed, not only re Subject, but on the entire Hungarian Colony in Rome.

This office is aware that Subject has been in the employ of this organization and as an individual, is well regarded by many. It is amazing to note, however, that this man seems to have been employed without sufficient background information and further, when information was obtained, it was obtained in toto from an Allied agent which is fully aware of Subject's connection with OSS.

4. It is recommended that KUVACS, MAGYARY, and ARADI be given Security Disapproval.
5. Subjects operate from Rome.
